

INPUT

Economic Query

Q: Impact of a
[Minimum Wage
Increase]?
→ Employment?

Model

(e.g., GPT5, Claude)

CORE ANALYSIS

Intervention-oriented Reasoning

**Intervention-
focused
reasoning**

Minimum Wage

Plausible Cause:
Increased Worker
Spending

Result:
Employment

Intervention Stance

Market-oriented Reasoning

**Market-focused
reasoning**

Minimum Wage

Plausible Cause:
Increased Business
Costs & Automation

Result:
Employment

Market Stance

Reasoning
pathway
divergence

OUTPUT

Asymmetry in Prediction Accuracy

Result 1

Employment:
Positive/Neutral

Employment

Prediction: [Employment

Intervention Output

Result 2

Employment:
Negative

Employment

Prediction: [Employment

Market Output
